## EPA NEW ENGLAND

## Center for Environmental Industry & Technology (CEIT)

The mission of the Center is to be a window to resources, people, and programs for the environmental technology industry in New England, and to promote the acceptance of innovative environmental technologies to solve the most significant environmental problems in New England.

## How Does CEIT Accomplish Its Mission?

- ◆ Access to information for technology developers
- ◆ Assistance in addressing regulatory & institutional barriers
- ◆ Access to technology information - for the regulators and the regulated community

## Access to Technology Information

- ◆ Virtual Technology Trade Shows
- ◆ Innovative Technology Inventory
- ◆ Technology Connection

## Virtual Technology Trade Shows

- ◆ Focused on storm water & decentralized waste water treatment
- ◆ Information on state & federal regulations
- ◆ 23 Waste Water and 24 Storm Water Technologies
- ◆ [www.epa.gov/ne/assistance/ceitts](http://www.epa.gov/ne/assistance/ceitts)

## Innovative Technology Inventory

- ◆ Web based listing of commercially available technologies
- ◆ Organized under 12 categories
- ◆ [www.epa.gov/ne/assistance/ceit\\_iti](http://www.epa.gov/ne/assistance/ceit_iti)

## Technology Connection

- ◆ Matchmaking service
- ◆ Available at:  
[www.epa.gov/ne/assistance/ceit/technologyconnection.html](http://www.epa.gov/ne/assistance/ceit/technologyconnection.html)
- ◆ Anonymous announcements in EnvirotechNews
- ◆ Technology developers respond & CEIT forwards the response

## Additional Web Resources

- ◆ EPA's Environmental Technology Portal (ETOP) [www.epa.gov/etop/user](http://www.epa.gov/etop/user)
- ◆ EPA's Environmental Technology Verification (ETV) Program  
[www.epa.gov/etv](http://www.epa.gov/etv)
- ◆ EPA Region 1 Pollution Prevention
